Reiki Level III Master Teacher Class

“A Reiki Master is not one who has mastered Reiki, but rather one whom Reiki has mastered.” William Rand

This class is the completion of traditional Usui Reiki training. Students receive the Master Teacher attunement and learn to teach the three levels of this healing art. The two class days are separated by a week of self-study and integration; allowing time to practice techniques. Instruction includes:

- Master Teacher Attunement, enabling practitioners to attune others to all three levels of Usui Reiki
- Breathing technique to enhance the ability to channel the Reiki flow
- Master symbols
- Hands-on training in the art of passing attunements
- Training in the practical aspects of organizing and teaching material and technique
- Manual for future reference
- Reiki Master Teacher Certification

Reiki Level I and II certification is required.
